## WEST STANDS FIRM FOR NEW GERMAN PLAN

### Oppose Request by Soviet That Republic Be Replaced by 4 Powers

PARIS, May 25—(AP)—The three western powers stood firm today behind the new German republic against a Soviet move to replace it with four-power control over Germany.

Secretary of State Dean Acheson and Foreign Ministers Robert Schuman of France and Ernest Bevin of Britain, in turn, declared the clock must not be turned back to what they termed "disastrous paralysis."

They were referring to the five-point proposal of Soviet Foreign Minister Andrei Y. Vishinsky to re-establish quadripartite control of Germany through the old allied control for Germany and the Berlin Kommandatura.

Vishinsky's five-point proposal was:

1. Reestablish the control council as supreme governing body in Germany.
2. Reestablish the allied Kommandatura in Berlin.
3. Create an all-German state council, founded on German economic organs existing at present in the Soviet zone and the three western zones.
4. Establish an all-Berlin city government on the basis of elections to be set by the Kommandatura.
5. Create a new four-power supervisory authority over the Ruhr industrial basin to be aided by a consultative body of representatives of neighboring nations, such as the three Benelux nations and Poland, Czechoslovakia and Denmark.

American sources later interpreted Vishinsky's proposal as nullifying the west German republic and the Marshall plan which would deprive the Germans of the local government they received in the occupation statute drafted by the three western powers.

## Rescue Woman In Canton Store Fire

CANTON, May 25—(AP)—A blaze, which firemen said was started by a cigarette in a carton of discarded sports ticket tape, brought out seven fire companies in the downtown section of Canton today at 1:30 a. m. today.

Miss Jean Stoll who occupied one of three residential apartments on the second floor of the building occupied by a sport shop was rescued by firemen who brought her down a ladder.

Flame damage was confined to the sport shop and the floors of the apartments, but water and smoke caused extensive damage to the second floor and to a camera store and a ladies apparel store on the ground floor. No estimate of the loss was available. Nobody was hurt.

## No Happy Birthday For Donna Marie

Today is the birthday of Donna Marie Saunders.

She is seven years old. But she isn't doing any celebrating. You see, she has been unconscious since Feb. 9 when she was struck down by a coal truck on Route 30, five miles west of Lisbon, near her home, as she ran to board a school bus.

The truck, driven by Richard Spiker, 28, of Youngstown, didn't stop when approaching the halted school bus, highway patrolmen said. It slammed into the little girl as she stepped onto the highway.

She was tossed high in the air and knocked to the roadside.

Since that time she has been lying near death in a bed at Salem City hospital. She suffered a compound fracture of the skull and four compound fractures of the left leg. The flesh on the leg was so badly mangled that it will take two years of skin grafting before the leg is healed.

The little girl's left leg is in a traction splint, pointed toward the ceiling. The break in the lower part of her leg has knitted, but the upper leg bone or femur, is still broken. Doctors are attempting to pull the leg now, so that the femur bone may be set. Skin grafting will come later.

She is being fed by the nurses

Donna Marie Saunders, her eyes closed to the world outside, lies in a coma in her City hospital bed. At left, the bright-eyed Lisbon girl as she appeared in school a few days before a truck ran her down on the highway.

and, although in a coma, manages to chew the food. During the last week, one nurse said, she has begun to reject food that she doesn't like by letting it fall from her mouth.

The nurse said she believes Donna sometimes hears what is being said and will respond to simple commands. However, she stares sightlessly and has never recognized any of her family.

Her hands, arms and legs are emaciated and in an almost rigid position. She has made no voluntary movements of her body since being brought to the hospital.

Her parents, Mr. and Mrs. James Saunders, who have kept a constant vigil at her bedside, say that so much brain tissue was destroyed by the fracture that it may be many months before Donna will regain consciousness.

Spiker, the truck driver, has never inquired about Donna since the day of the accident. An older man, who was riding with him the day of the mishap, died two days later of a heart attack. It was brought on by shock.

The parents have exhausted their savings trying to save their little daughter's life.

## 3 INJURED WHEN AUTOS COLLIDE

### Greenford Valetictorian Among Victims of Intersection Crash

Three persons were injured and two cars damaged in an auto accident at the intersection of a county road and the Canfield-Lisbon road, one mile north of Greenford, at 2:30 p. m. Tuesday, the state highway patrol reported.

The vehicles were driven by Robert Stockman, 22, of R. D. 1, East Palestine, and August Kappler, 37, of R. D. 4, Salem. The patrol said that apparently Stockman drove out of the side road and hit the side of Kappler's car. The latter rolled over.

Stockman suffered a concussion and bruises and Kappler had minor bruises and cuts. A passenger in the Kappler car, Esther Kidd, 17, of R. D. 1, Canfield, sustained a compound fracture of the left leg. She is a Senior at Greenford High School and was to have been valetictorian of her class at commencement exercises.

All three were brought to City hospital.

The front of Stockman's car was damaged, as was the front, top and both sides of the Kappler auto.

Other speakers will be John Thornton of Youngstown, head of PAC district 26; James P. Griffin, district director of the United Steel Workers.

## FOUR FACING ROBBERY CHARGE

YOUNGSTOWN, May 25—(INS)—Four Youngstown men faced armed robbery charges today, and one of the four also probably will be charged with shooting with intent to kill.

The robbery charges were filed yesterday against the four, all prisoners in city jail, who allegedly participated in a safe holdup last week.

No shooting charge was filed because it had not yet been determined which, if any, of the four shot the victim. The four are charged with shooting with intent to kill.

The four identified themselves to police as: Earl, 31; James C. Dalton, 31; J. C. Watson, 19, and Archie Turnage, 20.

## Ohio House Approves Bill Ending Capital Punishment

By REED SMITH

COLUMBUS, May 25—(AP)—Legislation to end capital punishment in Ohio passed the house of representatives for the first time Tuesday.

It cleared by a one-vote margin and headed for an uncertain fate in the senate. The vote was 69-53, with 68 needed for passage. Ohio has had capital punishment since 1824.

Other actions in a busy legislative day included:

Final passage of a toll turnpike bill through house refusal, 46 yes to 74 no, to reconsider the vote by which it earlier approved the measure. It went to Gov. Frank J. Lausche for signing into law.

Senate passage 27-0 of a house-approved bill liberalizing women's compensation laws. It now goes to the governor.

The verdict against Paul Flacus, Perry township coal mine operator, was to compensate the plaintiff for injuries sustained when a "booby trap" of dynamite was exploded as Allison opened the door of the mine shanty. The incident occurred May 14, 1944, and Allison's heels were shattered and his hip injured in the explosion. The jury deliberated one hour in returning the verdict in the court of Judge Joel H. Sharp.

Allison admitted on the witness stand that he used an iron bar to pry open the lock on the shanty door before entering. His brother, Glenn, accompanied him at the time of the accident.

A directed verdict for the Industrial Commission of Ohio was returned by a jury in the court of Judge Barclay W. Moore here Tuesday, when at the conclusion of a day and a half of hearings, a motion for a direct verdict for the defendant was sustained in the case of Mrs. Elsie French of East Palestine vs. the Industrial Commission of Ohio.

Mrs. French had sought the right to participate in the state insurance fund, charging her husband, Harold E. French's death in 1944 was attributable to gas and fumes inhaled while attempting a mine rescue near East Palestine in November of 1935.

Judge Moore, in directing the verdict stated that while his sympathies were with the widow, and while her husband had been a hero, he had gone into the mine shaft at the request of East Palestine. The state has many such volunteers.

The disaster occurred outside the East Palestine city limits, and the city did not have a contract with the township for fire protection, and therefore the fire chief's activity at the mine was without jurisdiction and purely a voluntary humanitarian effort. Judge Moore concluded.

Senators inserted a ban against agents selling drivers licenses. They also voted to retain present statutes allowing restrictive driver licenses for 14 and 18-year-olds.

The house-approved minimum age for chauffeur licenses was approved.

The workmen's compensation measure was hailed by sponsors as the most liberal since the law became effective in 1912. It had support from both labor and management. Major provisions would:

Increase maximum benefits from \$20 to \$30 weekly; death benefits from \$7,500 to \$20,000; temporary disability from \$1,500 to \$2,000; and funeral allowances from \$250 to \$300.

Maintenance and subsistence compensation during rehabilitation periods would be raised from \$15 weekly to \$20 for 52 weeks; and that for permanent partial loss of members from \$500 to a \$750 maximum.

Compensation for loss of limbs would be increased by ten weeks; loss of hearing would be compensable; and artificial teeth damaged on the job would be replaceable.

Permanent sickness benefits for 52 weeks; permanent benefits would be increased from a base of \$200 to a maximum of \$2,000 under certain conditions.

## BUCKMASTER SAYS OUSTER IS WRONG

### Rubber Union Official To Fight His "Firing" By Union Directors

AKRON, May 25—(AP)—L. S. Buckmaster, deposed president of the CIO United Rubber Workers, today called on rank and file members of the union to help fight his ouster.

The 55-year-old union leader was convicted by the rubber workers' executive board in Philadelphia yesterday of malfeasance in office.

Buckmaster said he will appeal the union membership at its convention in Toronto next September. He contended his removal was "by a small group of desperate men who could not gain control of our union by legitimate methods." His statement added:

"I have received reports that some of our local unions anticipate withdrawing from the international union or withholding the payment of their per capita tax from the international union in protest against this foul action."

Buckmaster urged against this and asked the locals to "fight untiringly to restore democracy" to the union.

Buckmaster, a founder of the rubber workers international 14 years ago, was succeeded as president by H. R. Lloyd of Akron.

The executive board charged Buckmaster with conspiring to deprive local union officers of their rights and issuing statements falsely attacking their character.

He also was accused of being responsible for a riot at a union meeting in Pottstown, Pa., last March.

## RECOUNT FRIDAY IN 3RD WARD RACE

The Democratic Third ward contest will be settled Friday night at the election board office in the Lisbon courthouse.

At that time a requested recount by Wilbur Hamilton will be held in his attempt to break a coin toss won by Harold Asty, incumbent, two weeks ago.

The Third ward mix-up came when Hamilton won the party's nomination from Asty, 48-47. Asty petitioned a recount which left the vote tied 47-47.

The board flipped a coin to break a tie and Asty won. Then Hamilton petitioned for another recount of the recounting Third ward precinct.

James M. Duffy, 36, of East Liverpool, president of the National Brotherhood of Operative Pottery, was fined \$25 and costs by Mayor Kenneth Hines of Lisbon for reckless operation.

Bernard M. Halter, 36, of Canton forfeited a \$10 bond to Hines for passing on a curfew.

Louis M. Lemman, 37, of Cleveland forfeited a \$10 bond to Mayor H. R. Johnson for speeding.

## REUTHER SHOT AT HOME BY ASSAILANT

### Walter Reuther's Brother, Also UAW Official, May Lose Right Eye

DETROIT, May 25—(AP)—A stealthy gunman, firing through a window, shot and wounded Victor Reuther of the CIO United Auto Workers union at his home last night.

Hurt badly, the 37-year-old unionist faces the possible loss of his right eye, pierced by a shotgun pellet.

Thus, for a second time within 13 months, police today sought a man, or men, apparently bent on murder in the UAW-CIO's Reuther family.

The union's President Walter Reuther escaped death at the hands of a mysterious assailant the night of April 20 last year.

That attack remains unsolved despite one of the most painstaking investigations in Detroit's police records.

Walter called his brother's shooting "another dastardly and un-American trick."

Later Walter charged the attacks on himself and Victor were carried out by men who were "paid" to do it in a "campaign of terrorism."

He said this was directed against "Pro-American and pro-democratic trade unionists."

"I believe the same people who paid to have me shot paid to have my brother, Victor, shot for the same reason."

"They are people who are opposed to decent, clean American trade unionism. They could be die-hard elements among employers, or Communists or Fascist agents."

"This is a campaign of terrorism intended to stop Pro-American and pro-democratic trade unionists in their effort to build a better America and a free world."

"These terrorists and un-American elements will not succeed. No campaign of terrorists will lessen our determination. It will make us work and fight all the harder."

Like his brother, Victor holds high office in the UAW. He is the 1,000,000-member union's educational director.

The assault on Victor was strangely similar to that on Walter. In each, the gunman crept to a window and fired a shotgun blast through a glass, then fled, witnesses said, in a car.

In bushes near the Victor Reuther home police found a 12-gauge double-barreled shotgun. Both barrels had been fired.

Victor Reuther's shooting followed by 72 hours the mysterious shotgun slaying in neighboring Windsor, Ont., of a rank and file member of the UAW in Canada.

Thart victim, William D. Allen, 37, also was shot through a window of his home. Allen was an inspector at the Ford Motor Co. of Canada.

Police, however, said they could establish no connection between Allen's slaying and the attempt on Reuther's life, nor any connection with the Ford strike.

Detroit Police Superintendent Edwin Morgan took personal charge of the investigation into Victor Reuther's shooting.

At the same time authorities took precautions to protect a third Reuther brother, Roy, a UAW international representative.

## Duffy Among 13 Drivers Arrested by State Patrol

## Reds Have Taken City, But Blast At Retreating Foe

### By FRED HAMPSON

SHANGHAI, May 25—(AP)—Communists marched into Shanghai today, and a roaring battle far worse than the siege developed.

Retreating Nationalists, trying to fight their way back to Woosung and escape, were blowing up everything they could. At 9 p. m. the whole horizon to the north seemed to explode.

Apparently the government soldiers, pulling back before the advancing Communists, blew up the fuel dumps, bombs and ammunition installations at Kiangwan airfield.

All the while cannonading shook the city as the Reds smashed with everything available at Woosung fortress. The Communists were determined to make the Nationalist escape corridor a bloody avenue if they can not close it.

The Reds, overrunning the world's most populous country, gave Communism its largest city by occupying almost all of Shanghai.

Stubborn Nationalist rear guards held fast at bridges across Soochow creek. Red mortars smashed up the main city postoffice near the Szechuan road bridge.

Towering Broadway Mansions, an apartment building where several Americans and British are trapped behind the Nationalist lines, was shaken up.

Even in the old international settlement in the downtown area small arms fire cracked as the Reds hurried down small groups of Nationalists still holed up in buildings.

Already there was firing farther north. This suggested Communists had crossed Soochow upstream and were encircling the Nationalists.

In the Honkew section, still far north, Nationalists were pulling out toward Woosung. There evacuation ships were waiting.

The only way out was north. Long since, the Reds had forged a steel ring almost around the city. Their drive from the southwest had swept over big Lungwah international airport and the smaller Jung-Jue airfield.

All that remained open to the Nationalists was the northward corridor along the Whangpoo—and perhaps Kiangwan military airfield, also north of the city.

The Reds put up posters instructing populace to be calm. They assured the people they had nothing to fear.

The occupation force was polite and orderly.

Yesterday Mrs. Forrestal sought to remove any blame from the hospital staff and authorities. She wrote Navy Secretary John L. Sullivan that:

"Jim Forrestal would be hurt indeed if he felt there was any criticism of the naval medical center for its care of him, particularly as there is no foundation for criticism."

"It would have been impossible for him to have recovered with the knowledge that he was under constant watch, and I am sure that the risk in gradually dispensing with the watch was essential."

## Cutting Where It's Painless

The 15 percent slash in second-year Marshall plan funds voted by the house appropriations committee might save upward of two-thirds of a billion dollars. But it isn't the kind of cutting that counts. The beneficiaries of U. S. aid to Europe don't vote in elections here. No great amount of courage is needed to tighten the purse strings at their expense.

What would count would be some 15 percent cuts in appropriations for domestic spending, not just for the sake of the money that would be saved but for the sake of confidence in government.

The impression that the federal government's spending rate is out of control and never can be reduced is psychological dynamite. Everybody else in the United States must cut down expenses when income slumps or face the consequences. But federal government moves in only one direction—up.

There are still some congressmen and administrative officials who don't think it's necessary to reduce federal expenditures. They are talking cheerfully about boosting taxes instead—being more "liberal" than ever with other people's money. The question is whether they really think such an attitude makes sense, or whether they adopt it to cover up their inability to control the Frankenstein monster they've been fattening with public money.

## The Cynics Were Wrong

June graduating exercises this year will clean up the main part of the bumper crop of G. I. students who continued their education at Government expense.

There will be fewer veterans holding textbooks with one hand and rocking cradles with the other, after this year. And all over the country, educators are judging the results of this experiment in education.

The cynics who predicted that hordes of loafers would swarm over the halls of learning were wrong, as cynics usually are. The overwhelming majority of G. I. students knew what they wanted, why they wanted it and proceeded to get it. They had what educators find too rarely in the ordinary run of students—a driving sense of purpose. The result: Most of them made more progress in their studies than the average progress of the student body as a whole.

One educator, Dr. Paul H. Hall of Hiram college, makes the following interesting comparison:

"The veteran seems to have overcome for male students the lead in scholarship that women have held, quite consistently, in ordinary times. . . it would probably be impossible to assign an exactly accurate weight to every reason why veterans—predominantly male as a group—should now have forged ahead. It might be impossible, too, to show the exact importance of grades as a key to the worth of a scholar, but the veteran has an edge over the non-veteran in the achievement of high ones, and custom places high approval on that achievement. He very probably has done it mainly by superior diligence."

## Frontiers of Health

It has become almost impossible to pick up a publication or listen to a radio program without reading or hearing something about psychiatry. The reference range from jokes to serious statements about this relatively new field of human health.

Dr. William C. Menninger of Topeka, Kan., president of the American Psychiatric association, told delegates at the association's opening session at Montreal Monday that the profession needs at least 10,000 more practitioners in the United States. The 8,000 now in the field are unable to do the job that needs to be done.

Much is heard about opportunity in this country—things that someone should do for the service and advancement of others. But opportunity is not limited to mere commercial enterprises. It includes everything that human beings need. And it is evident that one thing they need in increasing amounts is competent counsel for both the preservation and restoration of their mental health. That may be an ironic commentary on 20th century civilization, but no more ironic than the fact thousands of policemen are needed to offset the effects of crowded highways.

## Whatizats

In rehabbing the circumstances of young Franklin D. Roosevelt's victory over Tammany hall and the Republicans in New York City's 20th congressional district, analysts are pointing to the candidate's backing. He ran as the candidate of two parties—the Liberal and Four Freedom parties. No one knows what they stand for, or what they are. But their candidate won the election.

United States News & World report points to this and to the collapse of Democratic machines in Illinois, Jersey City and Memphis as evidence that "rotters are producing a new type of Democratic politician." Yet the chief characteristic of the newcomers—men like Douglas and Stevenson of Illinois, Kefauver of Tennessee and Franklin D. Roosevelt Jr.—is their opposition to Democratic machine politics. That seems to be the only thing they have in common—that and the support of large numbers of voters who apparently agree with them that machine politics can't be justified. Otherwise, they are political whatizats—too late to classify.

## The Stars Say

For Thursday, May 26

By GENEVIEVE KEMBLE

AN over-eager or too-zealous or strenuous effort to inaugurate a new program, policy or venture, might have the effect of defeat instead of progress since not only the forces, energies and funds might be exhausted, but aid from needed places might be jeopardized. It is advisable to slow down until over-wrought or hectic feelings or impulses are under cool control. Rash, reckless, extravagance in funds and energies could go so far as to challenge quarrels or litigation.

## For the Birthday

Those whose birthday it is, are admonished to conserve their funds, resources and energies, since over-playing even in practical, reasonable and promising ventures, could prove hazardous. Reckless moves, overdoing, intemperance or inflammatory conduct, might invite litigation, quarrels and discredit, with consequent reactions on health and peace of mind, at home and abroad. Strive for safety and good nature, lest there be harm, disaster, sorrow.

A child born on this day, while ardent, aggressive and progressive is likely to overshoot the mark, thus inviting defeat, loss, accident, regret and domestic strife. Be calm in all affiliations.

Seeing that FDB Jr. was born north of the border some Republicans have stopped worrying about the possibility of him running for chief executive. . . they seem to think this is Canada's problem.

But one pessimist recalls that Iceland was moved into the Western hemisphere with a pen stroke. He says "how do we know Campobello won't be towed down to the Maine coast on a dark night in the map department?"

He has been suspicious of longitude and latitude since the Monroe doctrine was found sitting on a bulletin in Greece. He wants to tighten the Constitution. Where it says "no person except a natural born citizen . . . shall be eligible" by what is meant "And this means YOU!"

But it's typical of Republicans to worry more about who the Democrats are going to run than about who THEY are going to run.

If he looks tonight that way he'd still be sticking his head under the bush.

## The Nation Today

By JAMES MARLOW

WASHINGTON.—(AP)—A phrase he used in kidding became, in the end, James V. Forrestal's prophecy of his own death:

"I expect to be a victim of the Washington scene."

That's what he was when he killed himself Sunday in a jump from a 16th story window in the Naval hospital.

He had cracked under the strain of nine years in Washington, most of them in tremendously important jobs.

There have been other victims who died or went to hospitals or withdrew. He was the first who sought escape through an open window.

EVER SINCE President Truman's election last November this place had been full of rumors that Forrestal, who took no part in Truman's campaign would lose his job as Secretary of Defense.

On Jan. 11 newsmen asked Forrestal about the rumors. Would he resign?

No, he said, he expected, and wanted, to stay on. Of course, he would submit his resignation to Truman who was going to be inaugurated on Jan. 20.

It's traditional for cabinet members to submit their resignations to a new President, just in case. Forrestal explained he was doing just a routine thing.

The newsmen asked: Did he think the resignation would be accepted? "No," he said, "I expect to be a victim of the Washington scene."

The newsmen took this as kidding. They understood him to mean: Once a man gets a big job in Washington, he likes to keep it.

But the resignation must have been accepted pretty promptly, for late in January his successor, Louis A. Johnson, began working with Forrestal very quietly to learn the ropes.

On March 23 Johnson said he had been working with Forrestal 54 days.

But the announcement that the resignation had been accepted was not made until March 3. Truman explained that Forrestal had been trying to resign for a year.

FORRESTAL STEPPED out on March 28 Johnson stepped in. On April 2 Forrestal, suffering a breakdown, went into the hospital.

He never left it until he jumped through the window Sunday.

In his job as Secretary of Defense

he had been attacked and criticized. Even his motives were challenged by outside critics.

As Secretary of Defense he was supposed to unify the armed forces but he felt congress hadn't given him enough authority for the job.

When he stepped out, they were far from being truly unified.

So as time went on and the rumors, criticisms and attacks increased he must have felt a deep frustration, perhaps even failure, or before his death he had been reading a Greek poem:

"The deeds that he hath done seem hostile all to hostile eyes. . . Better to die, and sleep the never waking sleep, than linger on, and fare to live, when the soul's life is gone."

Anyone who has worked any time in Washington knows the strain on

most of the top men. Here are just a few examples:

President Roosevelt died; so did his right-hand man, Harry Hopkins; so did Secretary of the Navy Knox; Admiral Ernest J. King had to be hospitalized for a while. Secretary of State Marshall resigned, underwent an operation, and retired to private life.

## President To Speak

WASHINGTON, May 25.—(AP)—President Truman will speak tonight at the opening of the national conference on "community responsibility to our peacetime service men and women."

The meeting, attended by more than 500 delegates, will be held at the Washington hotel. Truman will speak sometime after 9 p. m. (EST).

## If Wisdom Teeth Make Trouble

By HEEMAN N. BUNDESEN, M. D.

WISDOM teeth are traditional trouble-makers. So named because of their late appearance, these third molars are usually more handicapping than useful, chiefly because there is generally not room in the mouth for them to come in straight.

Sometimes, the wisdom teeth cause pain and slight swelling of the cheek because the tissues of the cheek are continually caught between the upper and lower third molars. This cannot continue long without the formation of a sore. The remedy is to polish off the biting edge of the upper tooth or, in some cases, to remove it entirely.

## Out of Position

As I said before, the upper wisdom tooth may be out of position. In this case also, it may cut into the cheek, and here again the treatment is to remove the tooth or to grind off its rough edges.

An ulcer of the lower gum may be produced because the upper tooth hits on the gum tissue. The ulcer is painful but is readily cured by removal of the upper tooth. If there is some reason why the tooth should not be removed, the part of the gum separated from the intact portion can be cut away.

Pain like that of neuralgia can be caused by the upper or lower wisdom tooth pushing forward. This puts pressure on the root of the tooth in front. The pressure may cause absorption of the material from the tooth in front, so that the nerve endings are exposed. The treatment in this case, also, is removal of the wisdom tooth which is causing the difficulty.

## Symptoms of Decay

Pain may result from decay of the wisdom tooth, either before or after it has come through the gums completely. In such case, the usual symptoms of tooth decay are present. There may be some discomfort when fluids or food are taken into the mouth. Sometimes, the decayed part of the tooth may be removed and the tooth filled. In other instances, removal of the tooth is necessary.

Occasionally, food gets packed in between the wisdom tooth and the second molar in front of it. The growth of germs on this food material may form substances which

damage the teeth. In these instances, an X-ray examination of the teeth should be made to determine what treatment is necessary. In some instances, removal of the second molar is required to allow the wisdom tooth to come into its normal position.

Sometimes infected cysts may occur in connection with a wisdom tooth. Removal of the tooth is necessary in these cases, also.

Letters to Dr. Bundesen should be addressed in care of 235 E. 45th St., New York City.

## 5 doctors prove this plan breaks the laxative habit

If you take laxatives regularly—here's how you can stop.  
Because 5 New York doctors now have proved you may break the laxative habit. And establish your natural powers of regularity. Eighty-three per cent of the cases tested did it. So can you.

Stop taking whatever you now take. Instead: Every night for one week take 2 Carter's Pills. Second week—one each night. Third week—one every other night. Then—nothing. Every day: drink eight glasses of water; eat a definite time for regularity.

Five New York doctors proved this plan can break the laxative habit. How can a laxative break the laxative habit? Because Carter's Pills "unblock" the lower digestive tract and from then on let it make use of its own natural powers.

Further—Carter's Pills contain no habit-forming drugs. Break the laxative habit... with Carter's Pills... and be regular naturally.

When worry, overeating, overwork make you irregular temporarily—take Carter's Pills temporarily. And never get the laxative habit. Get Carter's Pills at any drugstore for 35¢ today. You'll be grateful the rest of your life.

## 'We, The Women'

by RUTH MILLETT

A WOMAN may get a lot of satisfaction out of having the reputation for being a "perfect housekeeper." But maintaining the reputation is usually hard on her family. So many of the things that make home life cheerful and comfortable are nothing but a nuisance to a perfect housekeeper.

There are women who are so concerned with the elimination of dust and dirt they don't even want an open fireplace in their homes. Or if they have one they use it only on state occasions.

There are women who so hate to see their floors tracked up, their children can never have their playmates in the house.

CLUTTER BUGS

There are women who dislike clutter so much the family can't even spread the Sunday paper out over the living room, or lay down a magazine beside a chair and find it there five minutes later.

There are women who are so concerned with having a place for everything and everything in its place, members of the family can't enjoy hobbies. For hobbies usually create a certain amount of disarrangement in a house.

And there are women who are such fiends for order and neatness they don't want the children to have a pet, and if even they consent to a dog for the kids it is on condition that it not be allowed in the house.

These women usually have one accomplishment in common. They're almost always "perfect" housekeepers.

## Leetonia Council Okays Purchase Of Water Pump

LEETONIA, May 25—The village council last night authorized advertisement for bids for the new water pump.

The Board of Public Affairs announced its desire to secure the much-discussed pump at its meeting Monday night.

The pump and engines will cost the village approximately \$2,000 and will be put into use soon after installation. It will pump 300 gallons of water a minute. The present pump will be used as stand-by protection. Its capacity is 150 gallons a minute.

Advertisements for bids on the new equipment will continue for

five weeks and the pump will be installed in July or August.

The new pump will be electrically powered with a gas engine available in case of power failure. A manufacturing spokesman said that the new pump would allow for future expansion of industry in Leetonia and would give private homes better water pressure and service.

Under the direction of Ralph Sposetta of the Waterworks department, shutoff valves from the main lines throughout Leetonia are being replaced and covered with man-holes.

Council members viewed a movie on road-building during the meeting.

At a meeting of the joint Homecoming committee Monday night plans were announced to block Main st. from Chestnut to Oak st. Stands and concessions will be placed at both sides of the street, leaving the center pathway clear for emergency use.

Amusement park type rides will be erected during the June 1-5 celebration, according to Carl Varian, general chairman. He said that the bus station will be converted into a Red Cross first aid center and will contain rest room facilities.

### Three Arrests

Two reckless driving arrests and a disorderly conduct charge were filed over the weekend in the village. William E. Alexander, 18 of 409 W. Pershing st., Salem, was arrested at 3:30 p. m. Sunday for reckless operation on Columbia st. He appeared before Mayor Fred Galley Sunday evening and was fined \$33.70.

Richard Candel of 349 Ridge st. was arrested for reckless driving on Columbia st. He posted bond of \$35 and forfeited it when he failed to appear before Mayor Galley. Forrester R. Hall, 21 of 489 Columbia st. was fined \$33.70 before Mayor Galley on a disorderly conduct charge. He was apprehended after breaking windows in the Pennsylvania railroad building, police said.

## Town Hoping To Take Over Plant

APOLLO, Pa., May 25—(INS)—Townpeople of Apollo have a chance to become owners of the only industry in town—a steel mill—if they can raise \$50,000 by Friday.

If the 3,200 inhabitants reach that goal, they have until June 30 to dig up an additional \$200,000, which is the price the Phoenix Apollo Steel Co. is asking for the factory.

Howard C. Keiser, the firm's president, made the offer to the community despite a "liquidating" proposal from the Hertz Construction Co. of Niles, Ohio.

The company is closing the mill June 30, Keiser said, because it cannot get sheets, bars or hot strip metal. It employs 750 men.

Directors of the Chamber of Commerce told a citizens meeting last night that a non-profit organization would be formed to take over the mill, providing they can raise the money.

## Lucas Says No Health Program This Session

WASHINGTON, May 25—(AP)—Senate Democratic Leader Lucas said after a White House conference today it will be impossible for congress to act on President Truman's national health program at this session.

As for any part of the civil rights program, Lucas told reporters, "I just don't know."

At the same time Lucas said he thinks President Truman is "definitely satisfied" with the progress being made on the legislative program he submitted to congress in January.

"We are going to have a pretty good record by the time of adjournment," he said.

Lucas said there is a possibility of adjournment by July 31.

House Speaker Rayburn agreed congress possibly can quit by the end of July.

Both asserted, however, if the legislators are not finished with "major" measures by then, "we'll go right on in to August."

Lucas labeled as the three "must" pieces of major legislation:

1. Extension of the Reciprocal Trade program.
2. Repeal of the Taft-Hartley act.
3. Approval of the North Atlantic pact.

Lucas and Rayburn said the possibility of a special session of congress has not been discussed with the President. Talk of an extra session is pure speculation, they added.

## Air Force Maps Arctic Wasteland

To the Air Force's 72nd Photo Reconnaissance Squadron went the job of turning Alaskan and Arctic "wasteland" into precise aerial photographs. Since the unit was assigned to Ladd Air Force Base, Fairbanks, Alaska, in 1946, it has bucked severe weather to map more than 2,400,000 square miles of desolate land. For years the Alaskan mountain peaks were called "wastes" because they defied exploration. With mounted aerial cameras shooting every 20 seconds, a B-29 Superfortress, above, travels back and forth over typically rugged Alaskan terrain on a photo-run. At left, a team of photographic specialists matches up several photos by overlapping, trims and mounts them onto a giant mosaic which gives the big picture. This is how once-uncharted "wasteland" has been transformed into exact topographical aerial maps, sorely needed for this nation's defense.

Ill. Mr. and Mrs. Joe Hermann and son have moved to Pennsylvania.

Jimmy McCullough has returned home from the Alliance City hospital.

Rev. Thomas G. Holmes, with J. N. Decker, who represents the elders of the Presbyterian church, and Dr. Edgar Walker of Canton, district moderator of the Presbyterian church, are in Buffalo, N. Y. Members of the Loyal Workers 4-H clubs joined in the procession when they attended services at the Presbyterian church recently. They sang the club song "I Would Be True" and gave the 4-H pledge. Rev. Holmes commended the work of the club advisor, Mrs. Martha Cullison.

## 'THE GIFT OF FREEDOM' REFUTES SOVIET 'SLAVE' CHARGE

To counter Communist propaganda that the American worker is a slave, the U. S. government has prepared a booklet called "The Gift of Freedom" to tell the foreign worker how his American counterpart lives. The 142-page booklet tells its story precisely and without frills in text, diagrams, charts and pictures. Pre-

pared by the Bureau of Labor Statistics at the request of the State Department, "The Gift of Freedom" will be used in publications and radio broadcasts all over the world. Below are some of the photographs from the booklet which will give the Frenchman, the Hungarian, the Indonesian and the German the picture story of the conditions under which the American worker lives, works and eats.

Unions and factories offer free, on-the-spot medical care.

Workers are free to strike for better working conditions.

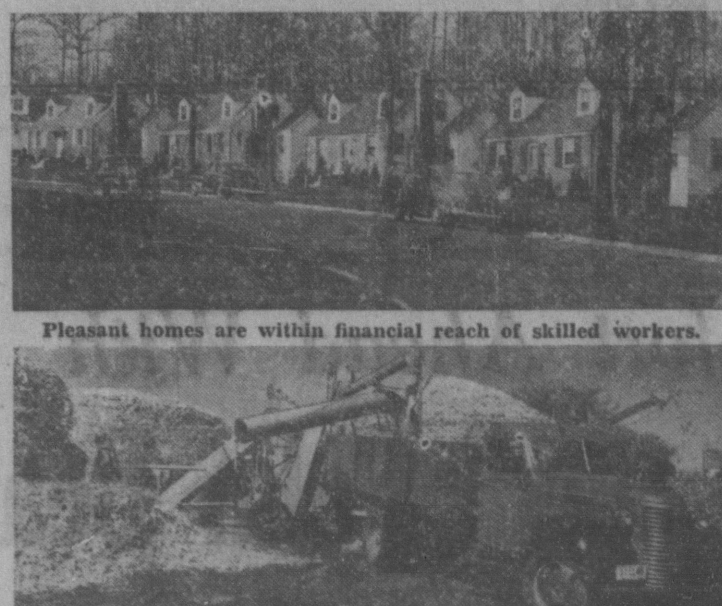

Many workers drive their own cars, park in company lots.

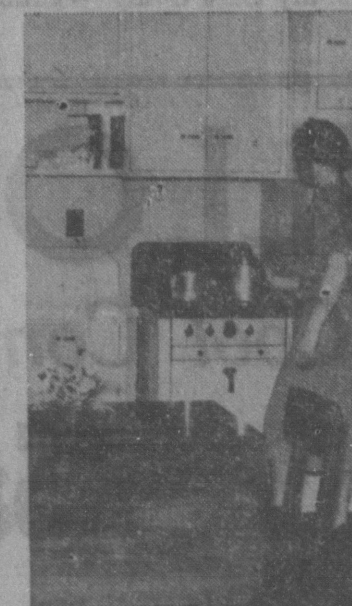

Food stores in working-class neighborhoods offer wide variety.

Workers' homes have well-equipped bathrooms.

Up-to-date machinery makes farming easier and more profitable.

Modern equipment is typical in a worker's kitchen.

# Dodgers Jackie Robinson In Midst Of Greatest Batting Spree

## Brooklyn Red Hot Mainly Through Hitting Of Star; Red Sox Look Improved

By JOE REICHLER  
Associated Press Sports Writer

Brooklyn's Jackie Robinson, in the midst of the greatest batting spree of his career, is taking the west by storm.

Not since the days of Lefty O'Doul and Babe Herman have fans of St. Louis, Cincinnati, Chicago and Pittsburgh seen anything like this come out of Flatbush.

The Dodgers' star second baseman has literally been tearing the cover off the ball since the Brooks left Boston for the hinterlands a week ago last Sunday. More than any other Dodger he has been responsible for Brooklyn's road record of six victories in eight games.

In eight games, the Negro flanker has rapped out 15 hits in 34 times at bat for a .441 batting average. He drove in 17 runs to boost his league leading total to 32. His season batting mark now is .316.

He tops the circuit with 18 extra base swats including 11 doubles, two triples and five home runs. He also leads in stolen bases with six. In the field, he is playing a near-flawless game.

Robinson whacked a pair of home runs and a single last night to lead the Dodgers to a 6-1 triumph over the Pirates in Pittsburgh. Each of his blows came with Duke Snider on base. Snider collected four hits in five times at bat.

Backed by a 13-hit attack against Bob Chesnes, Hal Gregg and Cliff Chambers, Righthander Ralph Branca rolled to his seventh successive triumph. The Brooklyn ace has not been beaten this season.

The victory, coupled with St. Louis 3-1 win over the league leading Braves, enabled the third place Dodgers to cut Boston's margin to two games. They trail the second place Giants by a game and a half.

The Giants took a golden opportunity to take over the lead when they were beaten by the Cubs in Chicago, 8-2.

The fourth place Reds went 11 innings to nip the Philadelphia Phils, 4-3, in a night game in Cincinnati.

The Boston Red Sox, looking more like pennant contenders each day, won a tense 10-inning 3-7 thriller from the Detroit Tigers for their fourth straight triumph.

The pre-season favorites for the American league flag now are in third place, but still four-and-a-half games behind the front-running New York Yankees. The Bronx Bombers had an easy time of it subduing the hapless St. Louis Browns, 13-3 at the Yankee stadium.

The scheduled night games between Chicago and Washington, and Cleveland and Philadelphia were postponed by rain.

Ebbets Field's single, with the bases loaded scored two runs for Boston after the Tigers had taken a temporary 7-6 lead in the top of the 10th.

The Yankees took advantage of some loose fielding by the Browns to tally 10 times in the fifth to wrap up the ball game. Phil Rizzuto's bases-loaded triple and Yogi Berra's three-run homer featured the uprising.

Stan Musial's home run with a mate aboard in the fifth inning broke up a tight pitching duel between Winner Harry Brecheen and Loser Johnny Antonelli to give the Cards the victory over the Braves. Brecheen permitted only five hits for his third victory.

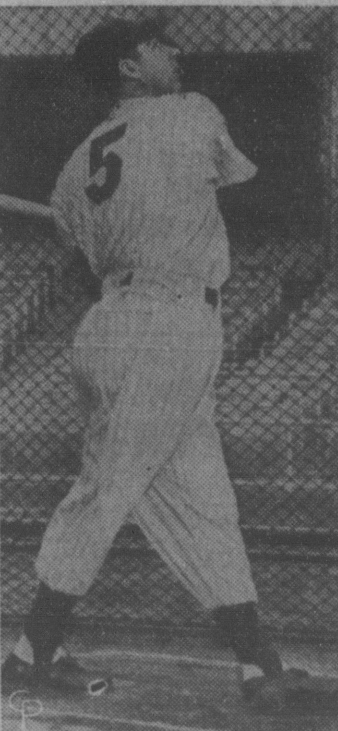

A three-run homer by Catcher Al Walker was enough to down the Giants and snap a five-game losing streak of the Cubs. Lethander Bob Chipman allowed only five hits for his third victory.

A squeeze bunt by Ray Mueller scored Johnny Wyrostek from third with the run that gave the Reds their overtime triumph over the Phils. Harry Gumbert, fourth. Redleg pitcher, was the winner.

**Sentenced For Killing**  
YOUNGSTOWN, May 25—Jo'n E. McGhee, 33, was sentenced to life imprisonment yesterday for the fatal beating of his wife, Ruth, last January. He was charged with beating her head against the pavement near their home. The conviction was on a second degree murder charge.

For picnic sandwiches allow plenty of time to soften and then mix with a little mayonnaise and some crumbled crisply cooked bacon; spread on whole wheat bread.

## Getting in Shape

**BACK IN UNIFORM** for first cut at the ball since he reinjured his right heel April 11, Joe DiMaggio takes a healthy practice swing at Yankee stadium. Notice absence of spikes on heels of his shoes, a move to favor the lame right heel. (International)

## MAXIM SIGNS TO GO AGAINST LESNEVICH

CINCINNATI, May 25—(AP)—Champion Joey Maxim of Cleveland, and Gus Lesnevich of Cliffside, N. J., are being re-matched for the NBA recognized American light-heavyweight crown.

Promoter Sam Becker, who put on the 15-round championship bout between the two fighters here Monday night, said yesterday he already had signed Lesnevich for the re-match, to be staged at Crosley field, Sept. 22.

Becker said Jack Kearns, Maxim's manager, would sign today.

The Cincinnati promoter, who reportedly lost some \$40,000 on Monday night's scrap, made the announcement shortly after Joe Vel'a, Lesnevich's manager, had told newsmen the former world's light-heavy champ was through fighting in the 175-pound classification because of the difficulty he encountered in making the weight.

The decision, Monday night, was unanimous for the Clevelanders.

## Their Own Medicine

CHICAGO—Cigar-smoking aldermen found themselves on the receiving end of one of their own laws. The city council passed an ordinance prohibiting smoking in public elevators. Now the city fathers must sniff out their smokes or walk upstairs in city hall.

Individual portions of potato salad are attractive when they are served in large lettuce cups and topped with a tiny sweet pickle. In making the salad, marinate the potatoes in French dressing, then add mayonnaise just before serving. To give the salad a crisp touch add finely diced celery or sliced radishes with the mayonnaise.

## INDIANS WILL "OPEN" AGAIN, VEECK DECIDES

Colorful President has Idea How to Snap Things Up: Friday Is the Night

WASHINGTON, May 25—(AP)—Bill Veeck, baseball's greatest showman, has his own remedy for snapping his Cleveland Indians out of their prolonged slump, and as usual, the formula calls for lots of noise and the carnival spirit.

The Tribe prexy announced last night before the washout of the Tribe-Philadelphia Athletics game that a second opening day would greet the World Champs Friday night as they begin a long home stay.

The opponents for the occasion, Chicago's White Sox, may be a little bewildered by it all because they underwent open game ceremonies last month sometime. Veeck hopes, naturally, that they will be kind enough to let his blundering champs romp all over them.

"We're simply wiping the slate clean," the colorful Veeck said.

"We'll make a fresh start. Everything that happened before will be forgotten."

Games tonight and Thursday with Washington's Senators precede the Friday night festivities. Steve Gromek will carry over his starting assignment from last night. He will be opposed by Righthander Sid Hudson of the Senators.

Barring more Veeck surprises, the Friday night script calls for a complete repeat of the April 23 festivities that preceded the Tribe's 4-3 win over Detroit before 63,000.

Bands will blare, pretty drum majorettes will twirl their batons, and Mayor Thomas A. Burke will have another "first" ball.

An extra attraction will be the raising of the 1948 World Championship flag for the first time.

The Tribe has lost 8 of 10 games on the current road trip.

**Video Rocket Pictured As Televising Earth**

CLEVELAND—Televising the entire earth's surface would be one of the possible uses for a man-made satellite rocket, according to a General Electric rocket engineer.

The engineer, R. P. Haviland, said the use of rockets for this purpose would lead to more accurate and longer-range weather forecasts and "preparation of a truly complete and accurate map of the earth's surface."

Haviland pictured the rocket video equipped, as whirling perpetually about the earth at thousands of miles an hour at an altitude of 4,000 miles. The rocket would follow a path over both poles and pass within viewing distance of every point on the earth each 12 hours.

Leftover gelatin may be cut in small cubes and served as a colorful topping for tapioca pudding. Children in particular enjoy this garnish. If the tapioca pudding itself has to be stretched, add sliced bananas or peaches or some other fruit.

## Salem Polo Season Opens With 2 Games Here Over Memorial Day Weekend

The Salem Polo club will again be seen in action on the N. Ellsworth road field this year with Harbor Hills of Columbus inaugurating the season with a twin bill on Sunday, May 29, and the next day, Decoration Day, May 30.

Salem, as usual will rely upon the stalwarts of past years with several newcomers in the lineup. The regulars who will see action in practically all games will be Willie R. Smith at number one, Tony Sheen and Walt Fernengel at number two, Jim Pidgeon at number three and Pete Votaw at number four. Several stars from Darlington and Zelenople probably will assist the locals until Votaw, who injured a finger, rounds into full shape.

The local contingent has been working hard the past several weeks, aided by excellent weather, and has the playing field in the best of condition for the opener against the hard riding Harbor Hills team which has provided the best of enjoyment for local fans of any visiting team to visit here in recent years.

Dave Barnett, captain of the visitors and prosecuting attorney of Franklin county (Columbus) has notified Votaw, president of the Salem club, that he will present the strongest lineup this year ever to represent the Columbus team. Dave Holcomb, a six goal player who has confined his activities to play at Columbus has agreed to make the road trips and will be on hand for the opener here.

Salem has not been idle during the winter months, having secured a number of new ponies to supplement those carried over from last year. Last Sunday Willie Smith and Tony Sheen returned from Pennsylvania with four new ponies, one purchased by Smith and the other three by Sheen. From all reports two of them will create sensations here as the fastest, smartest ponies ever to be seen on the local field.

Workmen have been busy the past several weeks getting the grounds into shape and report that with the excellent growing weather a full turf has been assured for the inaugural.

A greatly expanded program has been mapped for this season with a number of new teams appearing here. Springfield and Toledo of the Ohio loop have organized teams while Poland, Darlington, Rolling Rock from Pennsylvania will be seen in action at the North Ellsworth grounds. The Detroit Ivorys play a home and home engagement with Salem in addition to contests against two teams from Akron and possible frays with quartets from Cleveland.

## Connecticut Gives Acre To Ohio Town

HARTFORD, Conn., May 25.—(AP)—Connecticut has decided to give away its acre in Ohio.

The legislature has passed a bill authorizing the state treasurer to convey the acre, and the abandoned schoolhouse on it, to Jackson township, Paulding county, Ohio. The measure now goes to Governor Bowles for his signature.

The land was sold to Jackson township for \$50 53 years ago—but with a string attached. The thrifty Yankee official who made the deal provided that if ever the land should cease to be used for school purposes Connecticut would take it back. That happened last year.

The acre was part of an 80-acre tract in which the state invested school funds.

State Treasurer Joseph A. Adorno disclosed last fall that Connecticut owned the acre, and a number of persons both in Ohio and Connecticut offered to buy it.

But the General Assembly decided it ought to go back to Jackson township—with no strings attached this time.

Hot kidney bean salad is delicious served with frankfurters. Add carrot sticks and celery wedges to the menu for good flavor and texture contrast.

## Accused of House Fraud In Cleveland

CLEVELAND, May 25 — (AP)—Five building officials were accused today of making overcharges totaling \$27,976 on new homes built for 32 war veterans.

Criminal informations filed in federal court yesterday named the State Housing Corp. and four officers in cases involving 28 home sales. The four were identified as Mitchell Weisberg, president of the American Meat Co., Inc., his wife, Estelle; David J. Ferber, an accountant, and Leonard H. Hinds, an attorney.

They were accused of overcharges of \$18,801 by allegedly failing to provide garages, driveways, fireplaces and by substituting frame gable walls for specified black veneer.

The other defendant, Peter D. Kleist, was involved in overcharges of \$9,875 on four homes, the petitions said. Kleist is a partner in the Merrick-Kleist Construction Co.

He was accused of selling homes at prices above the maximum allowed by the government for veterans' homes.

## Taft Challenges Medical Pay Bill

WASHINGTON, May 25—(AP)—Senator Taft (R-Ohio) has challenged an administration claim the present system of paying for medical care is totally inadequate.

"I don't agree with that at all," Taft told J. Donald Kingsley, acting Federal Security administrator.

Kingsley, speaking for the administration, was the first witness before a senate labor subcommittee studying President Truman's national health insurance program and various counter-proposals.

Kingsley told the subcommittee the Truman plan for a payroll tax insurance plan is the only alternative to state medicine. He said the nation already is supporting a huge program of state medicine with an estimated 24,000,000 citizens receiving various kinds of federal medical care.

Kingsley also said: "It appears to be agreed upon that our present system or payment for medical care is totally inadequate."

Taft took exception to that, and added:

"I don't agree with your conclusions on a dozen different things."

Taft is the chief sponsor of one of the substitute medical and hospital care bills before the subcommittee. His measure would provide upward of \$1,250,000,000 in federal

grants to states over an initial five-year period.

Taft said it seems to him the administration payroll tax plan and the rest of Truman program for expansion of medical facilities and services "is a rather elaborate plan of grants and loans to all sorts of different people."

REMEMBER the men who can't forget...

HONOR THE DEAD BY HELPING THE LIVING May 28

Allen K. Reynolds Post No. 892

VETERANS OF FOREIGN WARS OF THE UNITED STATES

When you gotta stop - you wanta stop!

"It can stop on a dime," the salesman promised you, "—and leave nine cents change!"

And your Buick did — when it was new and brake linings unworn and everything factory-tight and fresh.

But brake linings wear — lights grow dim with time — tires can lose their bite and traction.

And with a whole summer's driving ahead, what better time than this to bring your Buick back to new-car peak in all those details that mean so much to safety?

Our men, trained in Buick ways, will give you brakes that stop you as Buicks should, with new brake linings that are right in size and brake drums turned to perfect round.

They can replace sealed-beam headlights to give you new-bulb brilliance — and while they're at it, check battery, voltage, wiring and headlamp aim to boot.

They'll check tires, switch them as needed, look into wheel alignment for easy steering.

In a word, they'll renew your Buick with the same care and interest they would lavish on their own — and do it at no greater cost than for just ordinary service.

So drop in. Get set for some summer fun that's up to lively Buick standard.

## Check your car --- Check accidents!

Three great service and safety organizations across the country are electing car-owners everywhere this month on safety-checking their cars.

They list ten vital question marks for you to think about — How are your brakes? Lights? Tires? Steering? Wheel alignment? Or

Active glass? Rear-view mirror? Muffler? Windshield wipers? Horn?

Be sure your family rides in safety — ask your Buick service man to look over these checkpoints this month — and join the great drive for driving safety!

# Demand Checkup On Atomic Group

WASHINGTON, May 25—(AP)—Senator Vandenberg (R-Mich.) called today for "a complete inquiry" into the attitude of the Atomic Energy commission and Chairman David E. Lilienthal on all security matters.

A congressional committee already is looking into the commission's operations and one investigator-Senator Hickenlooper (R-Iowa)—demanded that Lilienthal resign.

The investigation has revolved about the award of atomic educational grants to an admitted Communist and to others who failed to receive security clearance for work on secret matters.

Vandenberg said in a statement "It is unthinkable to me that Communists should be educated at public expense."

He added he must withhold "final judgment" on Lilienthal's work as

AEC head until the security issue is cleared up.

Vandenberg, a member with Hickenlooper of the senate-house atomic committee, said the importance of the security matter "cannot be ignored in view of Senator Hickenlooper's statement, because he is in my opinion one of our best informed experts on this whole matter."

Hickenlooper accuses Lilienthal of "incredible mismanagement" of commission affairs.

# Drop Charge of Perjury On Meyers

WASHINGTON, May 25—(AP)—The government has dropped its perjury charges against former Maj. Gen. Bennett E. Meyers.

The wartime air force purchasing officer, now serving 15 months to five years for inducing another man to commit perjury, still faces an additional charge of income tax evasion. He will be eligible for parole from prison Sept. 15.

All three charges developed after Blierot LaMarre had told a senate committee that Meyers, while an army air force officer, had been secret owner of a war plant in Ohio, with LaMarre serving as its dummy president. LaMarre testified that Meyers had induced him to testify falsely about the plant's ownership.

In the perjury charge, which it dropped in district court yesterday, the government had accused Meyers of giving false testimony about his interest in the company.

LaMarre, who pleaded guilty perjury, is now on two years probation.

# NEW GARDEN

Rural Life Sunday was observed at the New Garden church May 22. Rev. G. E. Chalfant gave the sermon. There was a son and 4-H pledge by the Junior Farmers and Farmerettes club.

Each lady at Sunday school received a corsage of pansies on a 4-H emblem. George Dressel, having a vacation from his duty of teaching a Salem church school class, was a visitor.

New Garden Boy Scout Troop No. 82 and leaders attended weekend camporee at Camp McKinley. Parents had planned a picnic dinner and tour of the Scout farm but because of the storm, the boys came home Sunday noon and about 50 enjoyed a covered dinner in the church basement.

Tuesday evening women of the church served a banquet to the eighth grade graduates of Hanoverton school which includes 29 boys and girls of the district. The room was decorated in blue and gold, class colors. John Gruscecki is teacher.
